Condemning the Terrorist Attack on Saint Francis Xavier
Catholic Church of Owo of Nigeria**

In the Name of God, Most Beneficent, Most Merciful

Extremely grieved by the terrorist attack on Saint Francis Xavier Catholic Church of Owo in the Ondo State of Nigeria, the Center for Interreligious and Intercultural Dialogue of the Islamic Culture and Relations Organization strongly condemns the move, massacring innocent people.

It seems that unfortunately, insulting the sanctities of religions, killing religious people, destroying the houses of God, and burning the heavenly scriptures and religious symbols have become part of the satanic trends in the 21st century.

The massacre of Christian fellow human beings offering prayers and celebrating Pentecost at St. Francis Catholic Church in Ondo State, Nigeria, has pained the hearts of all believers and free people around the world. This bloody tragedy is reminiscent of the horrific tragedy of years ago (2015) in the Baqiyatallah Hussainiya of Zaria, Nigeria. In both cases, the believers in God Almighty were massacred and the temples of God were destroyed.

This center expresses its disgust for the perpetrators of both and other similar events around the world and extends its condolences to the bereaved survivors of this tragedy and to all the believers and free people of the world.

We desperately ask God Almighty to thwart Satan and his mercenaries in carrying out such evil plans.
