

His Eminence Bishop Philip Huggins

Honorable President of the National Council of Churches in Australia

Dear Sir,

With warmest greetings and best wishes for Your Eminence and my dear friends in the National Council of Churches in Australia and also with sincere appreciations for your efforts in mobilizing various Australian individuals, associations, and believers who care about saving the earth from the dangers threatening it due to lack of concerns on the part of human beings, I would like to inform Your Eminence that following our virtual meeting in the month of September 2021 and in alignment with the joint statement issued, this center, too, has made certain moves with the aim of holding prayers by the followers of all religions in the Islamic Republic of Iran to ensure the success of the 26th United Nations Climate Change Conference (COP26) in Glasgow and to protect the nature and environment from any possible harm.

The outcomes of this move were as follows:

- Prayers during the Friday Prayers all over Iran on Friday, November 5, 2021
- Prayers in the religious ceremony of the Iranian Jewish community on Saturday, November 6, 2021
- Prayers in the religious ceremony of the Iranian Christian community on Sunday, November 7, 2021
- Prayers in the religious ceremony of the Iranian Zoroastrian on November 5-8, 2021

I ask God Almighty to continue to grant you success in such activities that reduce human suffering and promote peace and friendship throughout the world.

Dr. Ghamreman Soleimani

Head

Interreligious and Intercultural Dialogue
